

Keidanren Nature Conservation Fund Grant Program / Outline and Framework of Grant Categories

Grant Categories		Small Scale Grants		Mid-Scale Grant	Large Scale Grant
		First-time applicants (Basic Grant A)	For NGOs in Least Developed Countries (Basic Grant B)	Standard Grant	Collaboration Grant
Purpose/Characteristics		These are grants to expand the base of human resources engaged in biodiversity activities. As much as possible, we have simplified the application and reporting process in order to reduce the burden on applying organizations.		This follows the grant method/scale used up until now. This is a grant for projects in their initial stages as well as for organizations attempting new challenges.	This is a commitment for a 3-year continuous period for large-scale projects. these are collaborative projects that involve cooperation with governments, local society and businesses that serve as models for other organizations
Requirements for Organizations		- The organization has not received grants from KNCF up until now	- Grass roots' organization in a "Least Developed Country" (Current affiliation)		- A collaborative project that involves multiple organizations.
		Does not meet the requirements on the right	Does not meet the requirements on the right	-- An organization that can appropriately respond to the requests of the KNCF fund for reporting on the status of the grant-supported project activity status and the budget and financial status -- An organization that has incorporated status, or is a voluntary organization with social credibility of an equivalent level to an incorporated organization --Has a record of conducting nature conservation projects for 3 years or more	-- An organization that can appropriately respond to the requests of the KNCF fund for reporting on the status of the grant-supported project activity status and the budget and financial status -- An organization that has incorporated status, or is a voluntary organization with social credibility of an equivalent level to an incorporated organization --Has a record of conducting nature conservation projects for 3 years or more
Activity Region	Japan	◎	—	◎	—
	Overseas	◎	◎	◎	◎

	<p style="text-align: center;">Activities that support the “post-2020 global biodiversity framework” (GBF) * (GBF is scheduled to be adopted/determined at COP 15)</p>		
	<p>(1) Activities that involve the conservation of biodiversity (2) Activities intended to solve the related societal issues, and activities that support SDGs, etc., (3) Activities to support the development of the necessary human resources</p>
